“ALL CREATION IS GOVEREND BY LAW"

The ones which manifest in the outer universe discoverable by Physical scientists are called Natural Laws. But there are subtler laws ruling the Realms of Consciousness / Quantum World which can be known only through the Inner Science of Yoga (sensory to super sensory). The Hidden planes also have their Natural and Lawful principles of operation.

It is not the Physical Scientist but the fully Self-Realized Master, a YOGI who comprehends the true Nature of matter and Quantum World without the need of Technology! There is a Core Tesla Could not Penetrate and a YOGI Does!

The Below post which you are about to read is 2 years Old offering glimpse of the TRUTH and Much Information has been Transmitted Since Then, all Against the Reptilians #ILLUMINATI and in favour of Human Evolution- The Next Clan of Upgraded DNA's - All i have Decoded/ Locked in the 'BOOK' (seek me and i guide you towards the

My Posts are mixture of Scientific research stamped with truth of DIVINE from my internal system - will and shall rewrite History, uplift the BRAND of Planet EARTH and help Maintaining it

You can't observe the Quantum World or could Transcend the Senses and Limitation of SPACE-TIME without activating your Pineal gland -- the other 5 senses have too narrow bandwidths.

Scalar waves(superpower) that travel faster then speed of Light can be generated by resonating your DNA with your Pineal Gland.

The psychedelic journeys are accessed and experienced within the realms of the pineal gland. The Pineal Gland is the Shiva Lingam (which provides the seed of life- soul seed (DNA) within which lies the essence of entire Cosmos..)

TRUTH CHANGES PERCEPTION, TRUTH IS NOT ENDORSED BY MEDIA, NEWS, MAGAZINE OR PEOPLE IN POWER. TRUTH ENDORSES ITSELF, DO NOT CONFUSE IT FOR SPAM!

There is only ONE Martyr to Science and Human progress--- the only scientist with a shining legacy.. One full generation ignored his outstanding achievements (thanks to Reptilians #Illuminati), yet Tesla refused to expose cheaters and ignored his patent infringers till he died.

Nikola Tesla said that there was a difference between Progress and Technology. Progress benefits mankind. Technology does not necessarily do that. If you have a technology that is polluting the planet, that's not progress.

> **One of the most genius scientist was Nikola Tesla the "father of Free Energy" and also the discoverer of the Neutrino**

A Super Genius Serbian. Tesla knew that the ancient Indian Brahmans / Vedic Seers (Wise men), well equipped with knowledge from the Vedas, had understandings of the intricate laws, mathematical formulas and subtle workings of the universe that far surpass anything we can even imagine today.

> ***Serbian Nikola Tesla was an Indigo child with NIL junk DNA in his body. The day he was to be born, there was a mysterious sonic boom and a great storm.***

Nikola Tesla took keen interest in Vedic science, patented his first ozone generator, and formed the Tesla Ozone Co. Tesla sold ozone machines and ozonated olive oil to doctors for medical use.
The electric battery was used in ancient India to create medical Ozone from electrolysis of water charged with fresh Tulsi or Basil leaves(medicinal herb)

The Evil Pharma industry and the doctor lobby have long tried to suppress Ozone, as this magic gas will put all of them out of *Business*.

The Indian Maharishis produced Ozone from their copper lotas containing Ganges water by using the energy from their 12 strand DNAs.

Nikola Tesla used to charge his Brain with Ozonated air every day (in today times, breathing through NOSE shall allow the Filtered air to reach your Lungs, do Nose Breathing during Night sleep)

Nikola Tesla was introduced to the Vedas by Swami Vivekanand Ji after he asked SwamiJi to enlighten him on spiritual connections and why western scientists were praising, while talking all about the Vedic texts.

THE INDIAN MYSTIC WHO INTRODUCED NIKOLA TESLA TO CONSCIOUSNESS AND ETHER -- (AKASHA) FASTER THAN LIGHT VEDIC SCIENCE

> **Brahman Field- Higgs Field is a SCALAR field-- a Harmonic Resonance field. Our Body is a collection of particles, our mind is a collection of waves & our soul is energy. Scalar waves travel faster than speed of light.**

While introducing Nikola Tesla to longitudinal field ZPF waves in 1903, the great Indian mystic has told him -

> **"Every part is a whole and everything springs from the WHOLE !!"**

> ***Scalar waves can be used to TIME REVERSE cells back from the Cancer condition to the previously healthy state, as they can travel through space time continuum and through all solids including the Earth***

The whole cosmos is interconnected in a morphogenetic field and speed is NOT restricted to speed of light. Consciousness creates energy, it creates matter, and it creates the perspectives of space and time. The transmission of scalar information creates consciousness fields— Morphogenetic Fields

Nikola Tesla's Greatest Discovery

Was an entirely NEW KIND OF ELECTRICITY

He called it Radiant Matter

aka di-electricity, radiant energy,

impulse electricity longitudinal waves

Why was it so amazing?

His experiments revealed the existence of the AETHER

the ever present field that connects all things. The non-physical Force behind all physical phenomena

it was not his poly phase AC motor.

OLD NEWS! IT'S AETHER ENGINEERING TIME!

- Infinite energy lay within every inch of the AETHER
- The ancient technologes were all based upon the AETHER
- The future revolves around our study of the AETHER

***AKASHA-ETHER-HIGGS FIELD- All pervasive sky of quantum energy of the Universe. Reiki practitioners know what Scalar Waves can do!!
Vivekananda told Tesla that classical science must factor human consciousness in, or be stuck in the mud for ever.***

He introduced him to the wisdom of ancient Vedas, which considers the universe and consciousness as fractal Sri Yantra Geometry. Much later Tesla used to see brilliant blinding flashes of this TOE geometry (Theory of Everything)
(If you stare at the centre spot (Bindu / singularity) every morning for 5 minutes , you will balance your left and right brain lobes)

The meeting was arranged by French actress Sarah Benhardt. Rudyard Kipling (born in India) and Mark Twain also wanted the meeting regarding mind over matter, cosmic free energy, akashik ether field to happen. They felt the planet deserved this union of **Classical Science & Quantum Consciousness.**

After the meeting, which forged Tesla's professional destiny -- Tesla started using Sanskrit words like Akasha for Ether (Zero point field) and Prana in his writings. He developed a penchant for Copper Lotas (which Himalayan Yogis use) and became a vegetarian.

Tesla's personal destiny was also affected. He had dozens of the most beautiful, intelligent and rich women vying for his love. Tesla decided to be celibate like Vivekananda, to harness and focus his mind to science.

(Tesla was far more noble than all western scientists combined. He was so impressed with Vedas that he internalized one of its great teaching – that the resources of universe and nature are for all)

"Nikola Tesla, the Croatian born inventor, had performed experiments at the turn of the century that revealed that air, at its ordinary pressure, is a conductor for large amounts of electrical energy over great distances without wires.

By 1904, Tesla had developed transmitters to harness scalar energy from one transmitter to another, undetectably bypassing time and space. He could just materialize it from one place to another through hyperspace, without the use of wires, it was just sucked right out of the space-time/vacuum and into a transmitter and into a beam which could be targeted to another transmitter

This meant a few things: That electrical use for the purposes of man would be available at any place on the globe. And that electricity traveling through the air shows how frequencies and waves of powerful energy do not need wires to be generated at one place and received in another."

Unfortunately he got no financial support for replacing electricity, which used wires and therefore earned money, and to this day, this is the reason why scalar energy is still not acknowledged in mainstream physics

Nikola Tesla wanted to keep electricity free, which US govt strongly opposed. Much of Tesla's life and work has been erased from history due to this mastermind inventor and scientist wanting to make the fruits of all his work available for free to the world.

Because he was not trying to use his genius for profiteering and exploiting others he was met with one setback after another. His grants and funding were constantly being revoked by those that control the economy and trade.

Forgives everyones ignorance.

This guy literally invented the mordern world, and over 50 years before we could even figure out how to understand his inventions, let alone use them. This guy deserves all the credit he can get. All he wanted was to make the world better.

Nikola Tesla taking original knowledge from **Vedas**, invented many things that we all use on a daily basis but most people have never even heard of him because his name was removed from common history (just like much of the teaching of the Vedas) and he was eventually murdered. He knew too much and wanted to share it freely for the betterment of mankind, not to exploit it. Unfortunately not everyone saw eye to eye with him.

Energy in a vortex acts as a frequency converter. Zero Point Energy is *Neutrino Power* - energy from the field; available at anytime, and everywhere present.

We can tap into the Zero Point Energy field. Positrons emanate from "the quantum vacuum" and get annihilated. These are energy oscillations at zero degrees Kelvin, where all activity in an atom ceases.

It is called vacuum energy because it is descriptive of the energy in a perfect vacuum, where no light or matter is present. In this state, random electromagnetic oscillations can still be observed, meaning that there is still some energy present. Such RESIDUAL energy is enormous and a cup of it could boil off the planet's oceans in a few seconds
Figure 12. The potential as observed or detected is a harmonic set of bidirectional longitudinal EM waves in 3-space. That is, this potential is the "effect" of transduction of an incoming time-polarized EM wave interacting with the source charge.

> ***A scalar wave is far different from a regular wave. Scalar wave goes in all directions into the surroundings. A vector quantity has magnitude and direction while a scalar quantity has only magnitude***

DEFIANCE

Nikola Tesla was more than an inventor
more than a scientist

He was a Revolutionary

He spoke truth to power
He NEVER backed down
He wouldn't sell out

What made him even more dangerous?

Tesla experimented relentlessly with the creative forces
He was a shaman and an engineer
Tesla made the ÆTHER an engineerable reality

"Only the existence of a field of force can account for the motions of the bodies as observed, and its assumption dispenses with space curvature. All literature on this subject is futile and destined to oblivion. So are all attempts to explain the workings of the universe without recognizing the existence of the ÆTHER and the indispensable function it plays in the phenomena." - Nikola Tesla

We Are Ready Now
We Will Finish What you Began
We Will Make The Future Our Own

ÆTHER FORCE

*The **BRAHMA ASTRA** was a destructive **Scalar Howitzer** (pic below). After Swami Vivekananda introduced Nikola Tesla to **Akasha or Ether**. Tesla experimented a primitive Brahma Astra at Tunguska in Siberia, after his meeting with Vivekananda.*

TESLA'S DEATH RAY
Pic above- In the 1930's Tesla announced a Death Ray, a weapon to destroy hundreds or even thousands of aircraft at hundreds of miles range, Tesla felt that if every country had a particle beam weapon, then no Country would ever be invaded -- the Tesla shield, which nothing could penetrate.

(You would point it to the skies, turn it on and all of the sudden those planes would just fall like that)

So he was trying to sell this particle beam weapon to the **U.S.**
Govt during **World War II**. Franklin Roosevelt was basically looking at two possibilities. Einstein was discussing the possibility of an atom bomb.
Tesla was discussing the possibility of a **Particle Beam Weapon**.
It turned out the atom bomb was able to be invented and that's the way they went.
Since he died in 1943, many nations have secretly developed his beam weapons which now further refined are so powerful that just by satellite one can: make a nuclear like destruction; earthquake; hurricane; tidal wave; cause instant freezing - killing every living thing instantly over many miles; cause intense heat like a burning fireball over a wide area; induce hypnotic mind control over a whole population and MUCH MORE !!! And they still give you a picture of discovering GOD PARTICLES and All that CRAP- Flushing Billions of dollars down the Toilet Discovering what has been mentioned in Ancient India **RIGVEDA** thousand of years ago..

Universe is filled with 'ETHER' which is source of MATTER. Quantum mechanics and relativity theorists would eventually enter a crisis (or they already know but just making us play fool at the hands of GOVT)

In the beginning of this century, Einstein proved the equivalence of matter and energy. Today we tell greater truth: Equivalence of Space, Matter and energy

Tesla understood the great power of **Zero Point Field - Akasha or Ether:** the power of space between the electrons and the nucleus

A
B
C
63.
Virtual energy field known as the quantum vacuum, or zero-point field- Higgs Field -Akasha. the source of everything that exists, and in which the memory of the cosmos is encoded. Nature of this ultimate source is Consciousness itself, nothing more and nothing less.

> ***It is NOT the atom which holds the power, but the space in between the parts of the atom, called Akasha. The electrons are in perpetual motion and do NOT fall into the nucleus due to free energy from Akasha.***

Acharya Kanad
(600 BC)

Acharya Kanad (In 600 BC on the banks of the river Saraswati the great **Aryan Indian Sage Kashyapa**, propounded the planets first atomic theory)

ZPF hold indefinite energy and this energy can be harnessed--which is what Tesla did.

Swami Vivekanda Ji's effect on Tesla was so Great that he became vegetarian, celibate and started using Sanskrit words which miffed the Vatican, and thus this great man was denied a Nobel prize..

He died with his scalar energy science in his head, because he did NOT want the US military to use it to destroy the planet. No wonder he was denied the Nobel prize and eventually killed. Knowledge is power, and there are many people that want all the power for themselves.

> ***Tesla wanted to give power to everyone for free! He was actually the first person to figure out how to make radio communication possible across the Atlantic ocean. But because he wanted to make this ability free for others his funding was stopped and the credit was later given to someone else (Marconi) that played the power game better than him.***

Here is just a partial list of some of Tesla's contributions to the world based on his research and experiments from Vedas, that he had not been given credit for:

> Radio (Marconi just robbed the ideas and work of Tesla and got the credit for it)
> Hydro-electricity (Tesla Built the first Hydro-electric power plant at Niagara falls As a result we see whats there now)
> X-rays
> transistors
> Resonant frequency (every one else figured it out 50 yeas later)
> Fluorescent and Neon lighting
> The induction motor
> The rotating magnetic field (precursor to gyroscope)
> Arc lighting
> Tesla coil
> Oscillators
> Encryption technology and scrambler
> Wireless communication and power transmission
> remote control
> Telegeodynamics (a way to search for metals and minerals)
> Tachometer and speedometer
> Refrigeration machines
> Bladeless turbines and pumps
> Cryogenic engineering
> reactive jet dirigible (precursor to Harrier jet)
> Hovercraft Flivver plane (precursor to Osprey helicopter/aircraft)
> Particle-beam weapons (precursor to Star Wars)
Likewise in ancient India, some selective greatest teachings were passed to the deserving Sages verbally, which remain stored in their memories, so that the power of knowledge is not misused by demonic beings referring to texts, if it were written. Only the knowledge which was helpful for mankind were passed to common human beings.

True to this belief of Vedas, all Tesla's engineering was done in his head, he never worked things out on paper or used scale models to come to a functioning final result. He was truly empowered by Lord Krishna. Things would appear in his head and he would simply record it exactly as it came to him, similar to Beethoven.

Below is a picture of the tower, Tesla built in the early 1900s in Shoreham, New York referred to as "Wardenclyffe."

This tower was proposed to be a model for more of these towers located around the world to provide free wireless energy to everyone. Upon J.P. Morgan's finding out it was not equipped with any type of meter to monitor who was using how much of the energy it provided and was thus Not 4 PROFIT - He ripped Tesla's funding out from under him and the tower was torn down.

> ***World would have been a better place if Tesla had got the same funding and moral support -- as what NASA gets !!***

Nikola Tesla Dies At 85 Alone in His Hotel Suite

Celebrated Inventor, Born in Yugoslavia, An Electrical Wizard

Nikola Tesla, 85, inventor of the Tesla coil, the induction motor and hundreds of other electrical devices, died last night in his suite at the Hotel New Yorker. According to hotel officials, he had been in failing helath for two
Tesla lived to be 86 years old. He was 6 ft. 2 in. (1.88 m) tall and reported to be strikingly handsome. He was also a celibate his whole life. This goes in line with the teachings of the Vedas that Tesla and other master minds were familiar with. The Vedas recommend for yogis, and those wanting super intelligence and inner power, to conserve their own divine energy by observing celibacy.

Infact, some of these scientists were grateful to Indians for restoring Vedic knowledge even after being invaded by mughals and Brits – being under siege for over 800 years. For the same reason, we were never taught about real achievements of Mr. Nikola Tesla and some of other like-minded great scholars, scientists who we may never know since they were removed from the history for vested interests.

> ***Tesla died with the Brahma Astra (Scalar Interferometer) knowledge in his head, as he did NOT want to give this destructive Vedic technology to the US military and Vatican, as promised to Vivekananda. It was to help mankind, NOT to destroy or enslave.***

So they denied this Eastern Orthodox church member, a Nobel prize for lighting up the world with AC electricity, and deleted him from history. Roman Catholic Edison was called the father of electricity by Vatican and his name was inserted in all text books. Marconi who stole Tesla's work, was given the Nobel prize for telegraphy.

Guess which one your teachers decided not to tell you about.
Thomas Edison, seen pondering his collapsed scrotum.

Nikola Tesla detaches his balls to give you a better look.

> *When Tesla died all his Scalar Papers went missing from his hotel room in New York.*

Despite Tesla's genius and global occult status, ultimately it was others who made great fortunes based on his inventions. He passed away quietly penniless, alone and virtually forgotten...until **NOW !! (He said FUTURE WILL B MINE !!!)**
Today the international unit of magnetic flux density is called "Tesla". All magnetic resonance imaging (MRI) machines are calibrated with Tesla Unit (from 0.2 Tesla to 9 Tesla).

Most Tesla technologies are used by military for HAARP (capable of projecting 4 gigawatts of power into the ionosphere to doctor it), scalar psychotronics (for mass mind control), and star wars -- from papers stolen from his hotel room before his dead body could be discovered, by his maid, Alice Monaghan

Nikola Tesla

The Forgotten Wizard (Father Of Scalar Energy!) Watch video by clicking the picture below.
Energy and matter is convertible E= MC2 (formula used to end the 2nd world war with Nuclear bomb --localised in Hiroshima and Nagasaki)

E=MC2 is the ultimate achievement of dis-information. Every single symbol here is meant to hide the truth about electricity. By falsely binding electricity to mass and then limiting it's velocity to the speed of light the study of electricity is made impossible by all future scientists… so much for science.

We know from the work of everyone from Faraday to Tesla to Steinmetz that there is no energy to mass equivalency. Oliver Heaviside makes it clear that mass has no place in Electrical Units

Charles Wheatstone, as early as 1868, proved that electricity moved 288,000 miles per second, almost 1.5 times faster than light at 186,000 miles per second. One can now see how this equation was crafted specifically to poison the minds of all future scientists and to prevent anyone from seeing the potential of electricity

> Goes further to E=T MC2 as in Vedic BRAHMASTRA, for faster than light Tesla Scalar Interferometry-- formula to start and end World War 3 -- AND TOTAL ANNIHILATION . Where T is 'delta T ' or change of time. When Scalar beams hurtle through hyperspace the flow of time gets redirected temporarily

(HEMISPHERICAL SHELL)
Since Nikola tesla died in 1943, many nations have secretly developed his Scalar beam weapons, more and more countries are getting the scalar technology needing it to defend themselves as well and this keeps getting passed on especially by the *Russians*.

IMPORTANT FACTS KEPT FROM THE PUBLIC BY NASA AND OTHER OFFICIAL AGENCIES!
HERE IS EVIDENCE that the Columbia space shuttle was destroyed by a particle beam weapon and that the Chinese or some secret government black ops group may be pointing these weapons of mass destruction at our cities and towns, causing wide-spread destruction disguised as freak weather storms and other "natural" events.

INCLUDES: Full text of the 1940 NY Times article in which Nikola Tesla unveiled the invention of the "Death Ray" • Information on the Soviet conspiracy to sabotage the U. S. Space Program, leaving a path of destruction • Shocking photos taken by a San Francisco photographer showing anomalous flashes of purple light around the space shuttle minutes before it exploded • If harnessed for peaceful purposes, these Death Beams could hold positive benefits for humanity. If placed in the hands of world leaders—as is currently the case—our planet may be on the eve of utter destruction.

The known countries which have scalar weapons are: America, Russia, France, Australia, Germany, Japan, China, Taiwan, South Africa, Israel, Brazil, UK and Argentina as well as various populations of Nazis still operating in Antarctica and all over South America.
Significance of the date 21st Dec 2012. It has to do with evolution of DNA of the Denizens of planet Earth. After Dec 21st 2012, a lot of humans on this planet have shifted to the wisdom mode rather than the knowledge mode, due to preprogramming of his DNA by Star (Cosmic) Dust / Rays - Tvasta, the Double Helix coiled serpents (DNA from outer cosmos has been energised by scalar waves and the cells will emerge to give new life forms plant and animal).

Alpha waves in the human brain are between 6 and 8 hertz. The wave frequency of the human cavity resonates between 6 and 8 hertz. All biological systems operate in the same frequency range. The human brain's alpha waves function in this range and the electrical resonance of the earth is between 6 and 8 hertz. Thus, our entire biological system – the brain and the earth itself – work on the same frequencies. If we can control that resonate system electronically, we can directly control the entire mental system of humankind.

- Nikola Tesla

Your DNA -Biological Internet is a energy transceiver and acts as a organising matrix with Consciousness. Wisdom determines how knowledge will be used. Science will happily accept consciousness. Darwin and Newton will be consigned to the Dustbin and man will understand the powers of his mind, as told in the Vedas. The internet of global consciousness will give DARSHAN of Space-Time continuum..
